## Tennis Net Post Court Royal TP 80

Square post, 80 x 80 mm. Special reinforced aluminium profile with groove for fastening the net holding rod. Internal trapeze tensioning mechanism with aluminium key for easy net tensioning. Clip-on cap made of cast aluminium including safety chain. Overall length of posts: 142 cm. Weight: 10.5 kg. Aluminium ground sleeves, depth of insertion 35 cm, complete with cast aluminium cover. Meets the European DIN EN 1510 safety standard.

**No. 40448** blue powder-coated

## Umpire Chair Court Royal Deluxe

This aluminium umpire chair with European Seal of Approval DIN EN 131, meets the highest standards. The ladder with its especially wide slip-proof rungs, as well as the projecting supports with four base plates, give this chair optimum stability. The middle plate between the ladder and the supports provides extra durability. The seat mount has an extra crossbar behind the blue, UV-resistant body-contoured seat.

**No. 408089** blue powder-coated

## Court Royal Pointer

Scoreboard with 6 adjustable disks for 3 set scores. Visible on both sides, clearer and easier to read, weather-resistant and light-resistant plastic. Easy mounting on fence or net. Complete with mounting brackets. Size 56x80 cm with 10 cm big digits.

**No. 40829** blue (without stand)

**No. 40831** blue (with stand)

## Wind Screen Exclusive 2 x 12 m

**No. 41512** blue

## Single Net Rods

**No. 40647** blue

## Bench Freiburg 150 cm long, blue

2 plastic legs and 9 multi-chamber plastic slats with reinforcement bracket in the center, foldable. Proven high-quality. Weight approx. 15 kg.

**No. 411991** blue

## Bench Helgoland 150 cm long, blue

2 plastic legs and 12 multi-chamber plastic slats with reinforcement bracket in the center, foldable. Practical and comfortable to sit on. Weight approx. 19 kg.

**No. 412071** blue

## Wooden handle 24 mm

24 mm Ø, 1.5 m long. For rakes, rubber rakes, line sweepers, line guider, match liners, line brooms.

**No. 40091**

## Wooden handle 28 mm

28 mm Ø, slightly tapered, 1.5 m long. For aluminum scraper, wooden rakes, aluminum rakes, plows.

**No. 40094**

# Maintenance Equipment

## Wheelbarrow Standard

Capacity: 85 l, 240 kg. Galvanized barrow with beaded rim, 1 pneumatic tire 400 x 100 with nylon sleeve bearing.

**No. 40103**

## Wheelbarrow Universal 100 l

Capacity: 100 l. Seamless pressed, galvanized barrow with sturdy rounded rim, 2 pneumatic tires, load 300 kg.

**No. 401021**

## Wheelbarrow Court Royal

This newly developed wheelbarrow for tennis sand should not be missed on any tennis court. Capacity 250 l, polyethylene synthetic bottom, 6 mm wall thickness, all-round stable rim, break proof, high abrasion resistance and complete UV-stability, stable 1" tubular steel frame, phosphated and plastic-coated, reinforcing cross-bars for stable bottom, simple emptying via tube runners, air tyres 4.00 - 8 ball bearings with pneumatic wheels, load-carrying capacity 350 kg.

**No. 401025**

## Aluminium Multi-Purpose Shovel

To spread clay or to remove old material and leaves, complete with handle.

**No. 40101** Size: 380 x 380 mm

**No. 40100** Size: 370 x 270 mm

## Frankfurt Shovel 1)

Round shovel made of steel, painted red, oil-hardened with ashwood handle.

**Nr. 40099**

## Holstein Shovel 2)

Square shovel made of steel, painted red, oil-hardened with ashwood handle.

**Nr. 40098**

# Maintenance Equipment

## Drain Cleaner A

To clean drain gutters. 5 cm wide, complete with wooden handle.  
**No. 40030**

## Drain Cleaner B

As above but 10 cm wide.  
**No. 40031**

## Guide Bar

Made of aluminium, collapsible, light construction, simple to handle. An essential tool for the groundkeeper for checking levels and finding hollows. Length 10 cm.  
**No. 40033**

## Hand Leveler

Made of aluminium, with rubber blade. To wash in the top covering and clear puddles, 200 cm wide.  
**No. 40020**

**Spare rubber blade** for hand leveler  
**No. 40021**

## Rubber Squeegee

Steel bar with rubber blade. Specially intended for stone removal. Light leveling of loose courts and water removal on hard surfaces, 100 cm wide, handle included.  
**No. 40022**

## Rubber Rakes

For fast removal of leaves and rubbish, without handle.  
**No. 40090** 50 cm wide  
**No. 40089** 70 cm wide

**Wooden Handle** Ø 28 mm for Rubber Rakes.  
**No. 40094**

## Aluminium Clay Spreader

To fill in holes and level irregularities, 100 cm wide, without handle.  
**No. 40060**

**Wooden Handle** Ø 28 mm for Rubber Rakes.  
**No. 40094**

# Maintenance Equipment

## Wooden Rake

Triangular beech wood, 70 cm wide with saw blade, without handle.  
No. 40040

**Wooden Rake** as above, though without saw blade.  
No. 40042

**Saw Blade** for wooden rake.  
No. 40051

**Wooden Handle** Ø 28 mm  
No. 40094

## Aluminium Plow

One side with steel band saw blade, the other side with solid profile, 70 cm wide.  
No. 40050

**Saw Blade for plough**  
No. 40051

**Wooden Handle** Ø 28 mm  
No. 40094

## Aluminium Surface Profile Blade

To smooth out irregularities, without handle.  
No. 40080 80 cm wide  
No. 40081 150 cm wide

**Wooden Handle** Ø 28 mm  
No. 40094

## Aluminium Scraper

Double-sided tool, one side toothed to roughen surface, other side flat for spreading. 80 cm wide, without handle.  
No. 40070

**Wooden Handle** Ø 28 mm.  
No. 40094

## Dressing Spreader

Trapezoidal shaped aluminium section dressing spreader. Light and easy to handle yet robust for precise distribution of material over large areas, 200 cm wide, without handle.  
No. 40084

**Wooden Handle** Ø 28 mm  
No. 40094

## Special Rake

Made of stainless steel, corrosion-resistant, for professional smoothing of clay courts, 66 cm wide, without handle.  
No. 40083

**Wooden Handle** Ø 28 mm  
No. 40094

## ZAGRO Motor Rollers

The ZAGRO tennis court rollers in longstanding proven type of construction and quality, with single-piece roller body without differential or with two-part roller body with compensation differential for better turning around of the roller. The mechanically turned off roller body characterizes this ZAGRO motor roller. The 800 mm wide trailing roll prevents the roller from sinking into the tennis court surface.

### Technical data:

Motor:	Honda GX 160, 4-stroke engine 4,0 kW at 3600 U/min.
Fuel:	unleaded gasoline
Drive:	hydraulic drive
Roller:	single-piece or split; width 900 mm, Ø 508 mm
Speed:	infinitely adjustable to approx. 6 km/h, forward and reverse
Working width:	900 mm
Weight:	empty ca. 350 kg, full ca. 470 kg
Dimensions	length: 1800 mm, width: 990 mm, height 1100 mm

### Motor Roller Zagro One-part ZBW 06 EX OV

No. 40141 One-part roller body, without body panelling

### Motor Roller Zagro One-part ZBW 06 EX MV

No. 40153 One-part roller body, with body panelling

### Motor Roller Zagro Two-part ZBW 06 EXD OV

No. 40157 Two-part roller body, without body panelling

### Motor Roller Zagro Two-part ZBW EXD MV

No. 40158 Two-part roller body, with body panelling

### Motor Roller Zagro FUTURA -Self-Driving

Mount motor roller with a swivelling seat, rubber-coated, broad drive front wheel, split roller body with compensation differential for high maneuverability. Simple and easy rolling of the tennis courts.

### Technical data:

Motor:	Honda GX 160, 4-stroke engine 4,0 kW at 3600 U/min.
Fuel:	unleaded gasoline
Drive:	hydraulic drive
Roller:	single-piece or split; width 900 mm, Ø 508 mm
Speed:	infinitely adjustable to approx. 6 km/h, forward / reverse
Working width:	900 mm
Weight:	empty ca. 380 kg, full ca. 510 kg
Dimensions:	length: 1800 mm, width 990 mm, height: 1050 mm

No. 40152

# Maintenance Equipment

## USP Motor Rollers

The new Universal Sport hydraulic rollers are characterized by their solid construction and good looks. Due to the use of serial components, the rollers are cost-effective, long-lasting and easy to maintain. A special attention is paid on the work safety. Due to the suction-noise-insulation an easy rolling is possible. The rollers are equipped with an electronic, contactless ignition and an oil-warning control-system. All USP motor rollers are GS and TÜV proved.

### Technical data:

Motor:	Honda GX 160, 4-stroke engine 4,0 kW at 3600 U/min.
Fuel:	Unleaded gasoline
Drive:	Maintenance-free hydraulic drive with automatic decompression, easy start.
Roller:	single-piece or split; width 900 mm, Ø 480 mm
Speed:	infinitely adjustable to approx. 6 km/h, forward and reverse
Working width:	900 mm
Weight:	empty ca. 390 kg; full ca. 510 kg
Dimensions:	length: 1750 mm; width: 990 mm; height: 1080 mm

### Motor Roller USP I OV

**No. 40120** One-part roller body, without body panelling

### Motor Roller USP II OV

**No. 40130** Two-part roller body, without body panelling

## Wimag Motor Roller MW 2000

WIMAG has developed a new motor roller on the basis of experience. The motor roller meets the requirements of the equipment safety legislation (GS) and has been approved by the German Technical Control Board (TüV). Rolling can now be carried out in both directions without turning around by placing the driver's seat at an angle of 90° into the direction of travel. The 4-stroke engine guarantees smooth running with a fully hydraulic drive and gentle starting and braking. An emergency shut-off ensures optimum safety for the operating personnel a split roller provides a minimum turning circle.

### Technical data:

Motor:	Honda GX 160, 4-stroke engine 4,0 kW at 3600 U/min.
Fuel:	unleaded gasoline
Drive:	Maintenance-free hydraulic drive enabling slow and infinitely variable starting
Roller:	Split roller, width 900 mm, Ø 620 mm.
Speed:	adjustable to approx. 6 km/h, forward and reverse
Working width:	900 mm
Weight:	empty 330 kg; full 590 kg
Dimensions:	Length: 1600mm; width: 1070mm; height: 1200mm

### Protective Plane for Motor Roller MW 2000

**No. 40151**

### Motor Roller USP I MV

**No. 40132** One-part roller body, with body panelling

### Motor Roller USP II MV

**No. 40133** Two-part roller body, with body panelling

### Protective Plane

Made of high-quality PVC

**No. 40160**

# Maintenance Equipment

## **SANDY II – Tennis Sand Spreader**

The new SANDY II was checked fundamentally and it makes the new sanding of the spring maintenance much more effective. Two helpers for the supply and half an hour time are sufficient in order to be able to spread the clay carpet like sand evenly distributed in one operation.

SANDY II is easy to operate by hand and it is able to take a maximum volume of ca. 120 clay. With its size of ca. 1000 x 500 x 600 mm it is very handy and has got an ideal weight of 50 kg. The working size is 990 mm.

The functional device for spreading clay was developed by experts and has been proven effectively on various courts. Even on uneven ground you get a completely smooth surface, which only has to be machined with a dragnet.

**No. 40142**

## **Clay Court Cutter USP 10**

Developed to reduce preparation work in spring to about one hour per court. Hard and moss-covered courts in autumn are no contest for this machine. The clay is removed completely and ejected in a strip. Depth is set to the millimeter with two butterfly nuts.

### **Technical Data:**

Length:	approx. 800 mm
Width:	approx. 850 mm
Height:	approx. 1000 mm
Cutting width:	approx. 655 mm
Weight:	approx. 75 kg
Motor:	Honda, 4-stroke, 4 kW/5.5 PS

**No. 40140**

## **Manual Roller I Special**

For tennis courts and sports grounds. Working width 90 cm, empty weight 60 kg, water filled 180 kg. Single-piece roller body with rounded edges and counter weights.

**No. 40170**

## **Manual roller I**

Like article No. 40170, but without counter weights.

**No. 40171**

## **Manual roller II Special**

Like article No. 40170, but with a split roller body which makes it easier to turn.

**No. 40180**

## **Manual roller II**

Like article No. 40180, but without counter weights.

**No. 40181**

# Maintenance Equipment

## Turbo Broom USP 10

The Turbo Broom USP 10 makes it easier to remove the old clay in spring. Through the low empty weight, the broom is to move effortlessly. The V-belt drive enables a left/right run, which makes it possible to remove the corners of the tennis court neatly. The Turbo Broom USP 10 is variously usable, so it is also possible to use that machine to remove leaves and snow from paths and car parks.

### Technical data:

- Motor: Honda, 4-stroke, 4 kW/5 PS
- Drive: by hand
- Kehrbesenantrieb: V-belt drives left/right
- Working width: ca. 90 cm
- Tyres: balloon tyres
- Weight: 65 kg
- Time requirement: ca. 40 min. per court

**No. 40161**

### Accessories

**No. 40165** PVC bristles, double, white (without illustration)

**No. 40164** Steel/PVC bristles

**No. 40162** Swath former

## Turbo-Broom USP 800

This new turbo-broom is developed to remove soiled clay in spring much faster and more easily. In contrast to the original turbo-broom it is equipped with a self-powered drive and brush-system with a hydraulic, hydrostatic Honda 4.4 kW engine. Both drives are easy to handle through the easy-to-read control board. PVC bristles are the same high quality as those with the USP 20 broom. Broom height can be adjusted to the millimeter without tools by using a crank at the broom frame. The continued usage of the hydrostatic drive guarantees easy and precise work and a long life with little maintenance.

### Technical Data:

- Motor: Honda, 4-stroke, 4 kW/6 PS
- Drive: hydrostatic
- Sweeping broom: hydrostatic, left/right
- Working width: ca. 90 cm
- Tyres: balloon tyres
- Weight: 100 kg
- Time requirement: ca. 20 min. per court

**No. 40143**

### Accessories

**No. 40145** PVC bristles (standard equipment), yellow

**No. 40147** Steel bristles

**No. 40148** Swath former

# Line Tapes - Accessories

## Marking Strips with Perforations, Universal

Simple installation without nails. Non-slip surface, excellent ball bounce behavior. Set consists of 85 lengths 4 cm wide, 8 lengths 5 cm wide, each 1.60 m long. Complete with connectors. Complying with international regulations.

**No. 40290** 4 + 5 cm

**No. 40291** 93 lengths 5 cm

## Marking Strips unperforated

**No. 40250** white, 4 + 5 cm

## Replacement Marking Strips with Perforations

Complete with connectors. Set of 10 lengths, each 1.60 m

**No. 40292** 4 cm

**No. 40293** 5 cm

## T-connectors

100 per set

**No. 40301**

## Marking Line I

Installation requires only a few nails (nails not included). Set consists of 3 rolls, each roll 50 m.

**No. 40200** 4 cm

Only available in complete sets.

## Fastening Nails

Rounded, flat-head, hot-dip galvanized. Specially made for tennis lines. 5 kg required for each court.

**No. 40310**

## Treated Wooden Pegs

For securing the corner points. 16 pegs required for each tennis court.

**No. 40330**

## Iso-Line

Anti-frost line covering. Protection against frost and other extreme weather conditions. Polyethylene 150 mm wide, 8 mm thick, set consists of three rolls, each 50 m. The tape should be weighted down with stones every 30 cm.

**No. 40341**

# Line Tapes - Accessories

## Tennis Line Speziala / Court Plus

This tennis line has been developed especially for clay courts. Made of flexible, hard, grooved PVC. With 4 mm wide lateral slits, at 28 mm intervals. The lines for double courts are supplied in 6 rolls. Hard PVC and lateral slits allow the lines and court surface to interlock perfectly. The lines are anchored with 18 ground plugs per court, which are included with all line sets. The installation of the lines can be carried out by only 1 person. Please choose the lines with the appropriate anchoring set for your needs.

### Ratchet Tensioner

Galvanized tensioner with special belts.  
No. 40371

### Drive-in Peg for Anchor Tube

Made of steel. In order to avoid damages while bashing the ground anchors, it is highly recommendable to use the drive-in-peg for anchor tubes.  
No. 40376

### Anchor Tube Ground Plug

No. 40373

**Anchor Tube Floor Dowel** made from stainless steel  
No. 403730

## Tennis Line Speziala I / Court Plus I

Includes 18 anchor tube ground plugs  
4 rolls, each 24 m – 4 cm width / 1 roll, 22 m – 4 cm width / 1 roll, 17 m – 4 cm width / 1 roll, 13 m – 5 cm width  
No 40365

## Tennis Line Speziala II / Court Plus II

Includes 18 anchor tube ground plugs  
4 rolls, each 24 m – 4 cm width / 1 roll, 22 m – 5 cm width / 1 roll, 30 m – 5 cm width  
No 40366

## Tennis Line Speziala III / Court Plus III

Includes 18 anchor tube ground plugs  
4 rolls, each 24 m – 5 cm width / 1 roll, 22 m – 5 cm width / 1 roll, 30 m – 5 cm width  
No. 40367

## Speziala 40 mm - Replacement Roll

No. 40374 17 m roll

No. 403740 22 m roll

No. 403741 24 m roll

## Speziala 50 mm - Replacement Roll

No. 40375 13 m roll

No. 403750 22 m roll

No. 403752 24 m roll

No. 403751 30 m roll

## Court Plus Anchoring Set

Consists of: 18 fixing clamps, rust-proof  
No. 403530

## Fixing Clamps

Made from stainless steel. For better anchorage of the corners. Fits to all Speziala sets.  
No. 40353

## Speziala Anchoring Set I

Consists of: 18 stainless steel tubular anchors, 16 pieces with 4 cm anchors and 2 pieces with 5 cm anchors.  
No. 403760

## Speziala Anchoring Set II

# Court Treatment Devices

## Hard PVC Smoothing Mat

The newly developed Universal Sport aluminium profile perfects the long-standing concept of the drag mat hard PVC and combiplaner. Due to the 15 x 20 cm individual segments a maximum flexibility of the whole application is given. The manifold scratch elements at the bottom side are ideal for roughening the place and at the same time for smoothing the unevenness and cleaning from leaves without damaging the surface. Especially suited for Cannada -Tennis, artificial grass courts and clay courts. All used material is extremely weather resistant and low wear.

Dimensions: 185 x 75 cm

**No. 41070**

## Combination Leveler

The newly developed Universal Sport aluminium profile perfects the long-standing concept of the drag mat hard PVC and combiplaner. This special tool combines the advantages of the drag mat Hard PVC and that of a drag net. The PVC front part loosens and clears unevennesses and with the rear part of the heavy drag net the open places are smoothed again and scratched filth gets dragged along. All used material is extremely weather-resistant and low-wear. Working width 185 cm

**No. 41079**

## Smoothing Mat "Super Clean"

This mat was developed to remove foliage, leaves, pine needles, etc. in an effective and quick way. This is possible through the smoothing with the Super Clean drag net which leads to excellent court leveling. After the smoothing a shaking out of the net outside the court is sufficient. The net should be kept flat on the ground while using. Dimensions: 230 x 66 cm.

Includes aluminium rail with drag cord

**No. 41077**

# Ball Machines - Training Walls

## Tennis Tutor ProLite

The wide speed range makes this machine a superb choice for all beginners. Due to the small size and light weight it can be stored easily and fits in almost all car trunks. A good choice for sports lessons in schools as well as for private use. The ball feed rate is electronically variable from one ball every 1.5 seconds to one ball every 10 seconds. The ball trajectory is manually adjustable from groundstroke to towering lob. The oscillator delivers shots randomly across the court.

### Technical details:

Ball capacity:	125 balls
Dimensions (HxWxD):	closed 31 x 50 x 46 cm
Weight:	13 kg
Power:	battery
Playing time:	2 - 3 hours
Recharging time:	12 hours
Feeding interval:	1.5-10 sec.
Top speed:	96 km/h
Ball flight:	stop to lob
Line-directions:	1 direction and random
Ball spin:	no
Case:	plastic
Remote control:	no – on-off switch

**No. 42013**

## Tennis Tutor

A battery powered beginner model which can be stored easily. Tennis Tutor is portable and towable like luggage if the towing handle is extended. Ball speed ranges from a gentle toss for children to high-speed for advanced learners. Ball trajectory can be set anywhere between groundstroke and lob. The machine can be set to repeat shots, to oscillate and random shots across the court.

### Technical details:

Ball capacity:	150 balls
Dimensions (HxWxD):	31 x 50 x 50 cm
Weight:	19 kg
Power:	battery
Playing time:	2-3 hours
Recharging time:	2 hours
Feeding interval:	1-12 sec.
Top speed:	136 km/h
Ball flight:	stop to lob
Line-directions:	1 direction and random
Ball spin:	no
Case:	plastic
Remote control:	yes on/off

**No. 42012**

## Tennis Twist

Especially designed for children and beginners. The Tennis Twist can be used in clubs and schools as well as in backyards, driveways and even basements. The machine is very easy to use - just turn it on and it shoots a ball every five seconds. The arc of the ball can be adjusted anywhere from approx. 3 - 6 meters.

### Technical details:

Ball capacity:	28 balls
Dimensions (HxWxD):	50 x 20 x 20 cm
Weight:	5 kg
Power:	battery
Playing time:	5-6 hours
Feeding interval:	5 sec.
Top speed:	15 km/h
Ball flight:	straight
Line-directions:	1 direction
Ball spin:	no
Case:	plastic
Remote control:	no – on-off switch

**No. 42016**

# Ball Machines - Training Walls

## Ball Machine Playmate Portable

High-quality machine with aluminium cabinet. Very easy handling and compact storage. Holds 200 balls, battery powered with on/off remote control. Variable back and top spin, oscillation with one, two or three lines.

### Technical data:

• Ball capacity:	200 balls
• Dimensions(HxWxD):	64x56x48 cm
• Weight:	31 kg
• Power:	battery
• Playing time:	6 hours
• Recharging time:	12 hours
• Feeding interval:	1-10 sec.
• Top speed:	140 km/h
• Ball flight:	short-long
• Line-directions:	2 direction and random
• Ball spin:	topspin and slice
• Case:	Aluminium
• Remote control:	yes on-off

No. 42003

## Playmate ACE

One of the top-selling machines in the USA. Comes with an ON/OFF remote control. Ball frequency: Two different ball speeds and spins. Elevation control; ball can be played from a drop shot to a baseline drive; variable topspin and backspin. Oscillation to one, two or three lines.

### Technical data

• Ball capacity:	200 balls
• Dimensions(HxWxD):	96x48x87 cm
• Weight:	33 kg
• Power:	220 volts
• Feeding interval:	1-10 sec.
• Top speed:	150 km/h
• Ball flight:	short-long adjustable
• Line-directions:	3 directions right-left-right
• Ball spin:	topspin and slice
• Case:	Aluminium
• Remote control:	yes on-off

No. 42034

## Universal Tennisball-Collector

This new ball collector collects all spread out balls in shortest time. Basket can be removed easily and emptied into the ball trolley or ball machine. The tentacles are retractable. High quality aluminium construction with big wheels. Basket can be hooked to the handle when balls are played.

No. 42076

# Ball Machines - Training Walls

## Ball Machine Playmate i-Smash

The best of the ball machines. Can be set in seven directions. For example: right, center, left, left right, right, center. It plays topspin, slice and short-long. The ball sequence can be continuously adjusted to 6-60 balls per minute. An ideal device for individual or group training. Throws accurately and is low noise.

### Technical data:

• Ball capacity:	300 balls
• Dimensions(HxWxD):	96 x 54 x 92 cm
• Weight:	35 kg
• Power:	220 volts
• Feeding interval:	1-10 sec.
• Top speed:	150 km/h
• Ball flight:	short-long adjustable
• Line-directions:	7 directions right-left-right
• Ball spin:	topspin-slice
• Case:	Aluminium
• Remote control:	yes on-off

# Ball Machines - Training Walls

## Smash-Back Training Wall

Made of acrylic and frostproof concrete. Homogeneously sealed green coating offers additional protection. Parabolic playing surface guarantees a spot-on ball rebound. The white marking lines are indestructible. This training wall is simply mounted and bolted to a strip foundation with recessed anchor bolts. Can be supplied in two heights, 230 and 300 cm with a 100 cm protective screen. Width individually adjustable with elements. Integration of sound-proofing, recommended in residential areas.

### Typ II E

Playable on one side. Height 230 cm, element width 148 cm, without protective screen.

**No. 42060**

### Typ II D

Playable on both sides. Height 230 cm, element width 148 cm, without protective screen.

**No. 42061**

### Typ I E

Playable on one side. Height 300 cm, element width 100 cm, without protective screen.

**No. 42062**

### Typ I D

Playable on both sides. Height 300 cm, element width 100 cm, without protective screen.

**No. 42063**

### Protective screen Typ E

For single-sided playing walls. Hot galvanized, angled ball protective screen. 100 cm high.

**No. 42064**

### Protective screen Typ D

For double-sided playing walls. Hot galvanized, angled ball protective screen. 100 cm high.

**No. 42065**

### Noise Reduction Type I and II E

For single-sided playing walls, 2,30 and 3,00 m. Prefabricated acrylic concrete slabs with covering and insulating materials.

**No. 42066**

### Side panelling

for Smash-Back rebound wall

**No. 42068**

# Ball Machines - Training Walls

## Air-Tennis practice wall

The recently developed Air-Tennis tennis practice wall is the ideal training partner for everyone, from beginners to experts. This product is a unique and absolutely unbeatable piece of training equipment for use in stationary or transportable mode. It comes in a bag and is easy to transport. To set it up, simply unfold it on the ground and roll it out. Use the bellows (supplied), then fill it with air - it just takes seconds. You can use the air pressure gage, also supplied, to check that the air pressure is at the right level, as this also affects the way the ball bounces back. There are also attachment straps on both sides for attaching the practice wall to our pairs of stands, fences, or sports hall walls. The ground protection sheet, also supplied, is simply attached to the rear side of the wall with hook and loop fastener. You can also empty it in seconds, simply by turning over the bellows. Players can play on both sides of the Air-Tennis practice wall. It has lines marked on it at the height of the net to guide the player. Tested by international trainers who rated it very highly.

## Roobak Training Net Wall

Made of powder-coated steel tubes. Roobak is a product developed in Australia. With the adjustable net tension and various setting angles it is possible to simulate serves and returns up to 10 meters.

The extreme rebound speed enables a normal playing rhythm and ball control for both beginners and professionals. Different games are possible with the eight marking cones. Dimensions: 150 x 150 cm, weight 6 kg.

**No. 45010** hot pink

## Tennis Net Training Wall

Transportable net wall of enameled tubular steel. Infinitely adjustable, for different ball variations. Size: 2.80 x 2.20 m.

**No. 42040**

**Replacement net** for Tennis Net Training Wall 2.60 x 2.0 m.

**No. 42041**

## Replacement springs

**No. 42037**

## Multi Sports Radar

This new speed control measuring instrument can be used for tennis, golf, football and many other ball games. The ball speed can be displayed within a few seconds.

### Technical Data:

- Speed control from 5 to 199 km/h or 3 to 150 m/h
- Measuring distance from 1-12 m
- Three-figure LED-display with 55mm high digits
- Voice-announcement of the displayed digits is adjustable
- On the average batteries without voice are non-perishable ca. 50h, batteries with voice ca. 30h.
- Automatic switch-off- function for saving the batteries
- 5 AA batteries are needed (Not contained in consignment).
- Suitable for all tripods
- Dimensions: 18 cm x 15 cm x 12 cm

**No. 43003**

## Tripod for Multi Sports Radar

**No. 43002**

# Ball Baskets - Balls

## Ball Catcher

The new ballnet eliminates the risk of an injury because of tennis balls lying around the court. Whether by child-, group-, or individual training, or by use of a ball machine, this net prevents balls from rolling onto the court. Quick and easy pick-up saves additional time.

**No. 40569**

### Short operating instructions

- roll apart the net
  - connect the eyelets with the provided rubber bands
  - pull the net over the posts with help of another person
  - the lower rubber band has to be fixed down at the ground, the upper one about 16 inches above
  - finally attach the bar spacer through the net on the same level
- Now you are ready to go.**

Use this QR-code for downloading the instruction movie

## Tennis Ball Wizard

Balls are removed from the practice area in lightening speed. The quickest tennis ball collector on the market. First of its kind in the world. It makes collecting balls fun. Simply "roll" the balls into the collector and empty them into the pail and then the fun can begin again. Capacity 25 balls. Delivery content: collector with handle, pail and prong to open collector for emptying.

**No. 42089**

## CLAX ® Ball Trolley

This newly developed trolley is essential for all tennis trainers. Due to the use of aluminium and a high-grade plastic, a high durability is guaranteed. The easily smooth-running wheels are bearing mounted and are equipped with lever brakes. Foldable within seconds. Storable in almost all trunks. A 46 l folding box is included but any other 32 or 46 l boxes can also be used. The boxes can be transported on the upper as well as on the lower platform. Load capacity of upper level 20 kg and the lower platform 40 kg.

Dimensions:

Completely opened: (L x W x H) 55 x 103 x 89 cm, folded together: (L x W x H) 55 x 71 x 18

Cage Height: 85 cm, Cage size: (L x W x H) 60 x 34 x 26 cm

Capacity: 120 balls, Weight: 10 kg

No. 26000

## Replacement box for CLAX trolley

No. 26001

## Ball Trolley Court Royal

Very stable and easily moveable trolley with large casters. Big ball basket and extra storage tray. Chrome-plated frame. The baskets and the lockable cover are powder-coated black. (lock not included)

Capacity: 330 balls, Size: (L x W x H) 60 x 49 x 92 cm

Cage Size: (L x W x H) 60 x 49 x 36 cm

Weight: 10 kg

No. 43021

## JOWO Tennis Caddy

The ideal partner for professional tennis trainers. Three height adjustment settings, simple and fast handling in transport. Can be folded for storage in a small space. Lockable cover. Sturdy, weatherproof structure.

Capacity: 220 balls.

No. 42087

# Ball Baskets - Balls

## Ball Basket Court Royal

The best-selling ball basket. Very sturdy, chrome-plated for collecting balls without bending over. Handle can also be used as stand. Locking cover, sturdy construction. Lock not included. Capacity: 70 balls.  
**No. 42080**

## Ball Pickup Tube Court Royal

Saves time and efforts picking up balls. Simply press this practical tube down onto the balls on the floor and it picks them up. Holds 17 balls. To empty the tube, just open the cover at the opposite end.  
Length 120 cm, Weight: 0.8 kg  
**No. 42053**

## Ball Basket Professional

Sturdy wire basket with special plastic coating. To collect balls and for use as stand. Super locking mechanism. Very stable. Wheels for easy transport. Hinged cover to lock the basket. Ideal for everyday use. Capacity: 90 balls.  
**No. 42081**

## Plastic Ball Basket

Sturdy plastic ball basket with long handles that can be slid into both sides for use as a stand and for carrying the basket. Standing height 80 cm, Capacity approx. 80 balls., Weight: 1.9 kg.  
**No. 42073**

## BALLBASKET

**HOLDS 80 BALLS**

Want a better serve?  
Ballport and practice is the answer.

BALLBASKET is made of tough, durable, recyclable polypropylene. Assembly is a snap. Sides snap together and screws are provided. Easy assembly instructions are in the box. No rust or weld breaks as with wire ball pickups. Handles flip over so you don't have to bend to pick up balls or bend down to take them out of the basket. So unique that multiple patents were granted.

Sliding bars at top provide quick closure for easy transport.

Steel handles lock in place automatically as you turn the handles up. Now you pick up balls without bending. Just place over balls and press down. Balls roll in.

When handles are tipped under they lock in automatically.

Bars on the bottom turn as you pick up balls. This makes ball pick up even faster than forcing bars over balls (as with other ball pickups).

## Information Board TMD 95

Suitable for outside and inside use, absolutely weatherproof design. Made of top grade, torsion-free aluminium sections, depth 95 mm. The surface is anodized in matt silver (E6-EV1). State-of-the-art manufacturing processes and advanced processing machines have been combined with technical know-how to provide a solid basis for this quality product.

### Basic frame

Very robust aluminium base frame with inset steel back wall with corrosion-resistant coating.

### Front frame

Aluminium front frame made of torsion-free multi-chamber aluminium sections with integrated weatherproof rubber seal and shatter-proof acrylic glass pane.

### Front frame fitting

Special interlocking sections across the whole width so that no hinges are required; this provides greater stability.

### Front frame opening

The front frame opens upwards and is held open by rods which engage automatically. The catch is released by lifting the front frame up again.

### Safety lock

Safety lock located on the bottom edge with two keys. Simple and troublefree operation.

### Wall fastening

The information board is fastened to the wall by means of two aluminium section rails; the board is then inserted into the rails and fixed by two screws at the bottom. All fastening elements are accommodated in the frame sections. It is not possible to dismount the information board when it is closed. This protects it very effectively from theft.

## Daily Information Plan

Bring order and clarity into the game by hanging magnetic nameplates in the corresponding sections. The chips can be marked in different colors for women, men, juniors, etc. The game times for team training, maintenance, trainer court, etc. can be clearly and easily reserved. The division into hours means that players can book between 45 and 115 minutes on court, more for doubles, by tagging the chips. The color-coded hourly division enables fast and easy time planning, especially for the lower courts. The sturdy metal panel is galvanized and clamped in an aluminium frame. The plan is printed brown on a white, photostable and weatherproof washable PVC film. Game times from 7 a.m. to 9:30 p.m.

- No. 41670** Plan for 4 courts, 120 x 38 cm
- No. 41680** Plan for 6 courts, 120 x 50 cm
- No. 41690** Plan for 8 courts, 120 x 68 cm
- No. 41700** Plan for 10 courts, 120 x 75 cm

## Weekly Reservation Plan

As above, though for clear weekly reservations. Arranged from Monday to Sunday, game times from 7 a.m. to midnight.

- No. 41710** Plan for 2 courts 150 x 89 cm
- No. 41720** Plan for 4 courts 150 x 89 cm

# Windscreens

## The high-quality screen, proven and tested thousands of times worldwide

Heavy-duty polyethylene fabric, UV-stabilized, lets wind through. Full border with plastic-lined brass eyes every 50 cm, thus very resistant to tearing.

**Wind Screen Super** The Quality Super weighs 160 g/qm is wind permeable and is available in the colours light- and dark green. It is the most sold wind screen. Only available in 12 x 2 m.

**Wind Screen Exclusive.** The quality of Wind Screen Exclusive weighs 140 g/qm and is extremely wind permeable and is excellently suited for printing, available in the colours light and dark green, yellow, white, blue, red and black. Standard size 12 x 2 m, but also available in length of 50 m and height of 4 m.

**Printing** The print is rolled on by hand twice with special UV-resistant ink. This ensures good adhesion and a long life. Print is normally done in black, however other colors can be printed on special request. Any company logo as well as standard lettering can be printed. Please contact our graphics department for special designs with your own lettering and logos. You will be sent draft forms free of charge which we will revise and present as final artwork ready for printing. Please contact us for further details.

## Spring Hooks

Galvanized, 60 hooks needed per 2 x 12 screen  
**No. 41530**

Technical changes reserved.  
Pictures are partially illustrations.

## Indoor Hall Covering

Top and sides with ring eyes, bottom weighted down with sewn-in lead tape.

## Perimeter Banners

Available in special sizes up to 4 meters in height and 50 meters in length in 10 different colors, with ring eyes or border stitching. Printed colors RAL-compliant.

## Volleyball Posts Court Royal 80 Steel

Very sturdy volleyball posts 80 x 80 mm, made of steel, coated in white. Net attachment and tensioning device galvanized, smooth-running and continuously adjustable. Height of post from the ground 300 cm. Complete with ground sleeves

**No. 30505**

## Volleyball Post Universal 80 Aluminium

Reliable, solid volleyball post 80 x 80 mm aluminium, compliant with DIN 7896. Easy-running net attachment and tensioning devices (galvanized, trapezoid thread mechanism) continuously adjustable. Surface of the posts and impulse profiles are matt-silver anodized. Complete with ground sleeves and covers.

**No. 30500**

## Volleyball Post Universal 83 Aluminium

Reliable, solid volleyball post 83 mm made of aluminium special profile, compliant with DIN 78966. Easy-running net attachment and tensioning devices continuously adjustable. All steel parts are galvanized. Post surface is matt-silver anodized. Complete with ground sleeves and covers.

**No. 30501**

## Volleyball post Special 80

Top volleyball post 80 x 80 mm made of aluminium profile compliant with EN 1271. Extra sturdy construction including slider with roller and tensioning device, crank as well as net hooks. Surface matt-silver anodized. Complete with ground sleeves and covers.

**No. 30520**

## Volleyball post Special 83

Top volleyball post 83 mm made of aluminium profile compliant with EN 1271. Extra sturdy construction including slider with roller and tensioning device, crank as well as net hooks. Surface matt-silver anodized. Complete with ground sleeves and covers.

**No. 30502**

## Aluminium Umpire's Chair

Aluminium volleyball umpire's chair made of round profile Ø 35 mm. Simple height adjustment, 3 possible settings, complete with 4 rubber feet, 2 straps for fastening to volleyball post, plastic table.

**No. 30600**

## Aluminium Umpire's Chair Royal

Aluminium construction, height continuously adjustable with crank. Entrance via ladder at rear. Four adjustable rubber feet, webbing for fastening to volleyball post, table and back made of PE500.

**No. 30610**

## Volleyball Antenna one piece

With GVF certification mark, length 180 cm, complete with bag and marking tape.

**No. 30675**

## Volleyball Net Training

Robust design made of 2 mm polyethylene cord with 11.70 m long steel rope. Dimensions according to regulations 9.50 m long, 1 m high, mesh size 10 cm.

**No. 30620**

## Volleyball Net Tournament

Especially used for outdoor use, very sturdy design made of 3 mm polyethylene cord with 11.7 meter long steel wire. Size compliant with regulations: 9.5 meter long, 1 meter high, mesh size 10 cm.

**No. 30660**

## Beach Volleyball Net UNIVERSAL

Black polyethylene net 2 mm, 9.5 m long, 1 m high, top with 50 mm wide edging in neon-yellow Universal Sport logo.

**No. 30684**

## Volleyball Post Heavy Duty

Absolutely weatherproof, very sturdy, vandalism-proof, competition-approved volleyball post made of 90 x 90 x 4 mm hot-dip galvanized steel profile. Height adjusted with a very easy-to-handle mechanism. Net tensioned with a turnbuckle. Complete with ground sleeves 35 cm. Post length 300 cm.

**No. 30510**

## Beach Volleyball Post Court Royal 83

83 mm Ø aluminium (DIN 7896). Easy running net attachment and tensioning devices (galvanized, trapezoid thread mechanism) steplessly adjustable. Surface is yellow powder-coated. Including ground sleeves made of aluminium, 35cm long.

**No. 30693**

## Beach Volleyball Marking Lines

9 x 18 m, made of polyester tape 50 mm, with loops at each corner and middle marking. Complies with the GVF (German Volleyball Federation) requirements. Wounded onto a plastic reel. Complete with 4 ground anchors, **No. 30688** color: dark blue

## Beach Volleyball Net UNIVERSAL

Black polyethylene net 2 mm, 9.5 m long, 1 m high, with 50 mm wide edging in neon-yellow Universal Sport logo.

**No. 30684**

## Beach Volleyball Net

Black polyethylene 2 mm, 9.50 m long, 1 m high, with pink edging 50 mm wide.

**No. 30680**

## Beach Volleyball Competition Net

Top 3 mm, low-stretch polyester tensioning rope, bottom 4 mm tensioning rope. With 4 tensioning cords as well as 75 mm wide coated edging in neon yellow.

**No. 30681**

## Beach Volleyball Marking Lines Turnier

9 x 18 m (or 8 x 16 m) with adjustable plastic corner elements, 50 mm wide PES-webbing and middle marking. Complete with 4 plastic ground anchors, 23 cm long and bungee tensioning ropes. color: dark blue.

**No. 30686**

# Sport and Games

## Universal Sport Posts Free-Standing

Can be used both outdoors and indoors. The multigame system that has been developed by Universal Sport is suitable for games involving nets and lines. The easily legible scale with game markings enables easy height adjustments, even if the net has already been erected. The system consists of two base frames, each weighing 60 kg, and 12 plastic-coated cast iron weights, each weighing 10 kg. The total weight per stand is therefore 120 kg. The rubber wheels with mounted ball-bearings make it easy to transport the system and the weights. In order to make the system easier to transport on uneven surfaces the cast iron weights can be removed, which reduces the weight by 60 kg and allows you to access any playing field. This makes any additional transport equipment unnecessary.

The rear side of the system is equipped with protective rubber pads. The plastic-coated 50 x 50 steel columns can be adjusted from 1.55 m to 2.45 m and are equipped with a safety lock. The scope of delivery includes an all-purpose net (length 6.10 m). The following games can be played: Tennis - Mini tennis - Fistball - Volleyball - Beach volleyball - Foot tennis - Indiaca - High jump with Zacharias bar.

The system has been designed in compliance with the GBF guidelines and is therefore suitable for badminton tournaments.

**No. 32001**

## Badminton Post I

For competitions and school sports. Post made of 50 x 50 mm aluminium profiles. Complete with hooks, tensioning belt and ground sleeves.

**No. 30802**

## Badminton Post II

For competitions and school sports. Posts made of 83 mm aluminium special profile. Complete with hooks, tensioning belt and ground sleeves.

**No. 30802**

## Badminton Post Hobby

Movable free-standing system with rubber wheels on the weighted base. Posts made of 40 x 40 mm steel pipe. Complete with hooks and tensioning belt, painted blue. Weight per post approx. 25 kg, radius 60 cm

**No. 30803**

# Sport and Games

## Badminton Umpire Chair

Elegant aluminium badminton umpire chair with European Seal of Approval DIN EN 131. Very robust because of the stable ladder and the projecting supports with four base plates. The seat mount has an extra crossbar behind the UV-resistant body-contoured seat. Including writing-board.

**No. 30888**

## Badminton Post Competition

Movable, free-standing system with rubber wheels and protective rubber pads. Posts made of 50 x 50 cm aluminium pipe complete with hooks and tensioning belt. Blue, hammertone-enameled. Other colors on request. Weight of each post approx. 70 kg. Rear extension 60 cm

**No. 30820**

## Additional Weight Badminton Post Court Royal

Approx. 35 kg each for competition

**No. 30825**

## Badminton Post Court Royal Tournament

According to DBV (German Badminton Federation) regulations. This system consists of two base frames, 60 kg each, as well as 12 plastic-coated cast iron weights, 10 kg each. This means a total weight of 120 kg for each post. The system has protective rubber pads. The 50 x 50 mm posts come complete with a tensioning belt. Solid rubber wheels mounted on ball-bearings enable easy transport with the weights. By taking off the weights and the posts the system can be easily stored and transported.

**No. 30831**

## Cast Iron Weights

Approx. 10 kg, plastic-coated

**No. 40498**

## Badminton Net Training

Made of 1 mm nylon cord, with tensioning cord.

Size 6.10 m wide, 76 cm high. Mesh size 20 mm, edged all round.

**No. 30840**

## Badminton Net Olympia

Made of 1.2 mm nylon line with tensioning steel wire, 6.60 m long. Size 6.02 m wide, 76 cm high, mesh size 18 mm, edged all round.

**No. 30860**

## Badminton Net Super Cup DIN

Competition net, compliant with DIN EN 1509 made of 1.4 mm nylon cord with 8 m long tensioning Kevlar cord and lateral polyester rods. Size 6.02 m wide, 76 cm high, mesh size 18 mm, edged all round.

**No. 30850**

# Sport and Games

## Royal Streetball System with GFK Backboard, round

Stable single-post structure made from 90 x 90 mm steel tube, hot-dip galvanized with screw-on plate for basket. FRP backboard 120 x 90 cm with DIN basket and net, including ground sleeve.

**No. 30026** Projection 120 cm

**No. 300220** Projection 165 cm

## Royal Streetball System with Grid Backboard

Stable single-post structure made from 90 x 90 mm steel tube, hot-dip galvanized with screw-on plate for basket. Grid backboard 120 x 90 cm with DIN basket and net, including ground sleeve.

**No. 300262** Projection 120 cm

**No. 300222** Projection 165 cm

## Streetball Unit Heavy Silent

All-metal competition streetball system made of galvanized steel pipe 114 x 4.5 mm. Steel grid board, extra low-noise, hot-dip galvanized, 120 x 90 cm. Powder-coated with flat iron enhancement for fixing. DIN drill-holes, with chain net.

**No. 300230**

All facilities complete with basket, board and ground sleeve.

## Big Duty Basketball System

Steel tube single-pole frame made from square profile 15 x 15 cm, hot-dip galvanized, projection 165 cm, fully welded. Including target backboard made from 8 mm solid aluminium 120 x 90 cm, painted white. Including super-stable basket ring with chain net, galvanized. Basket is screwed directly to frame and therefore prevents target backboard from being damaged if subjected to extreme stress. The system is extremely stable, weather-resistant, maintenance-free and vandalism-proof, therefore ideal for use on public playgrounds and sports facilities.

**No. 30027** backboard square

**No. 30038** backboard round

## Basketball Goal DIN red

According to international standard. Red powder-coated, complete with back plate with DIN drill holes 11 x 9 cm. EN 1270. Without net.

**No. 300229**

## Basketball Goal Big Duty

Indestructible basketball basket made of hot-dip galvanized steel pipe 27 mm diameter with flat iron enhancement. With DIN drill holes 11 x 9 cm. EN 1270. Without net.

**No. 30228**

## Basketball Goal Hobby red

Solid design, red powder-coated. 45 cm ring. Complete with net. Drill holes 7.5 x 6.5 cm.

**No. 300203**

## Basketball Goal Junior

Solid design, red powder-coated. 35 cm ring. Complete with 8 loop net. 2 hole pattern.

**No. 300213**

## Basketball goal DIN – reinforced

Same as 30220, but with reinforced ring and bar, red powder-coated, complete with back plate. According to international standard with DIN drill holes 11 x 9 cm. EN 1270. Without net.

**No. 30224**

## Streetball Goal Flex 30

Simple retractable goal with self-contained cage. Red powder-coated with DIN drill holes 11 x 9 cm. EN 1270. Without net.

**No. 31040**

## Basketball Goal Flex 70

Competition goal according to international standard. Double-spring retracting mechanism in self-contained safety cage. Resists loads of up to 70 kg on the ring. Red powder-coated with DIN drill holes 11 x 9 cm. EN 1270. Without net.

**No. 30227**

# Sport and Games

## Streetball Set Street

Weather-resistant plastic backboard 112 x 73 cm. Complete with basket and net.  
No. 310208

## Bronx Streetball Set

Weather-resistant, recyclable plastic backboard 112 x 73 cm, basket and net and wall mounting facility on back with projection of 22 cm. Extension 30 cm.
